INTRODUCTION

our college is proud to offer a specialized training program designed to enhance students' employability skills and prepare them for successful careers in the IT industry. This program aims to bridge the gap between academic knowledge and industry requirements, ensuring that our graduates are well-equipped to meet the demands of a rapidly evolving technological landscape. The primary objectives of the TCS Specific Training Program are **Skill Enhancement, Industry Readiness and Employment Opportunities**

ACTIVITY

The TCS Specific Training Program has been a resounding success, providing our students with the skills and knowledge required to excel in the IT industry by Mr Dinesh Sahoo of NIYATI Consultant. The collaborative effort between our college and TCS has not only enhanced our curriculum but also opened new avenues for student placements and career growth. We look forward to continuing this partnership and expanding the program in the coming years.

ACTIVITY: Basics on Data Communications

ORGANISED BY: Computer Sc Department, TAT

DATE: 10/02/ 2023

TOTAL PARTICIPATED:69

VENUE: Computer Lab, Trident, BBSR

INTRODUCTION

Data communication is the process of transmitting digital or analog data between two or more devices. This fundamental concept underpins the functioning of computer networks, the internet, and various communication systems that we rely on in our daily lives. Understanding the basics of data communication is essential for anyone interested in fields such as information technology, computer science, telecommunications, and networking.

ACTIVITY

Data communication is a cornerstone of modern technology, enabling the exchange of information across vast distances and between diverse devices. By understanding the basic concepts, components, and challenges of data communication, individuals can better appreciate the complexity and importance of the systems that power our connected world. Whether you're a student, professional, or enthusiast, a solid grasp of data communication principles is essential for navigating and succeeding in today's digital landscape.

About the Scheme

The Training & Placement Cell works towards recognizing the core competencies of students by offering a variety of Capability Enhancement Programmes to all students to improve their skill sets and broaden their job opportunities. The training programmes are devised, customized, and delivered to impart and imbibe the relevant skills and soft skills to suit the employer needs. ICT skill enhancement training programmes aids the students in equip themselves with computing skills which they need in further education and as an ongoing learning process and provide access to information through external networks.

Objectives

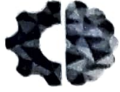

The main objectives of 'ICT Programme' are

- To get a new perspective on ICT tools and learn new ways and best practices to integrate ICT into learning and Professional Upgrading.
- To develop digital literacy skills that enable them to function as discerning students in an increasingly digital society.

Workshop on Design Thinking, Critical thinking and Innovation Design

TAT IIC organized two days Design innovation competition "HACKDAY" on the 15th and 16th of January, 2023 through the "ThingQbator" team (CISCO + NASSCOM Foundation). It was held at the TRIDENT Auditorium campus. They trained our students on developing solutions using "Artificial Intelligence" and "Internet of Things" technologies and conducted a 3 hr long Micro-Hackathon "HACKDAY" and on the 2nd day a panel discussion was organized where panelists were from Start-up Odisha, NASSCOM and the Startup Bookinggini and the chief mentor of Trident Academy of Technology, SEBI Accredited Angel investor. Close on the heels of the NASSCOM organised and CISCO funded thingQbator HACKDAY event in TRIDENT.

No. of Participants: 120

No. of Faculty members: 25

No. of Outside participants: 12

The workshop cum Design innovation competition paved the path in orienting the students in developing critical thinking and solving real world problems.
