SDG10: REDUCED INEQUALITIES

10.6.10 Disability accommodation policy

Trident Academy of Technology provides a range of accommodations for students with disabilities to ensure accessibility and inclusivity in compliance with India's disability rights act is the Rights of Persons with Disabilities (RPwD) Act, 2016. This policy is designed to support students with physical, learning, psychological, and other disabilities in accessing academic programs, facilities, and activities.

Students who need accommodations must provide documentation from a qualified medical or psychological professional. After registration, they collaborate with the institution's disability services office to outline accommodations, which may include extended test times, note-taking support, or specialized classroom seating. The aim is to facilitate equal access without compromising academic standards.
