Description

At Trident Academy of Technology, food waste generated on campus is systematically monitored and recorded on a monthly basis as part of the institution's sustainability initiatives. From Nov 2024 to November 2025, the data reveals a relatively consistent trend in food waste generation, fluctuating between 560 and 300 kg per month, with a total accumulation of **5937 kg** during this period. This continuous tracking enables the institution to analyse waste patterns, develop effective reduction strategies, and foster responsible consumption practices among students and staff—reinforcing its strong commitment to environmental sustainability.
