Purpose:
Trident Academy of Technology has made a commitment to address and remove social exclusion, including gender discrimination. Women's applications and enrolment are systematically tracked into the college.

Responsibility Centre: Principal

Procedure:
(a) Creating a supportive socio-cultural environment to encourage the application and enrolment

Plate 1- Policy promoting women application and enrolment

Plate 1- Trident Academy of Technology has implemented a policy to enhance women's applications and enrolment, aiming to counter social exclusion and gender discrimination. The policy, overseen by the Principal, focuses on fostering a supportive socio-cultural environment for female students and includes a tracking system to monitor women applicants and admissions. Faculty, staff, and counsellors build personal connections with prospective women candidates, resulting in high enrolment rates across programs.

DESCRIPTION

Trident Academy of Technology is committed to combating social exclusion, including gender discrimination, by promoting women's enrolment and tracking their applications systematically. Led by the Principal, the initiative includes creating a supportive socio-cultural environment for female students, implementing a tracking system for prospective women candidates, and fostering personal connections through faculty and staff. This approach has resulted in a high percentage of women applicants across programs. Additionally, the college is developing a gender-sensitive campus environment and enhancing monitoring, evaluation, and data systems to address gender gaps effectively.
