### 7.2.6 Divestment Policy:

Trident College has established a Divestment Policy to guide its investment decisions in alignment with its commitment to social responsibility, environmental sustainability, and ethical standards. This policy applies to all financial investments overseen by the Board of Trustees and investment committees.

The Divestment Policy includes the following key elements:

1. **Criteria for Divestment:** Investments are evaluated for divestment if they:
  - Contravene ethical standards, including human rights violations and discriminatory practices.
  - Contribute significantly to environmental harm, climate change, or unsustainable practices.
  - Involve controversial sectors, such as tobacco, weapons, or fossil fuels, which conflict with Trident's sustainability goals.
2. **Divestment Process:** The policy outlines a structured process for identifying, reviewing, and deciding on divestment actions. This includes regular portfolio reviews, recommendations from the investment committee, and final decision-making by the Board of Trustees.
3. **Stakeholder Engagement:** The college ensures transparency and encourages input from students, faculty, staff, and alumni. A formal feedback mechanism allows stakeholders to raise concerns about potential divestment candidates.
4. **Implementation and Monitoring:** Once divestment decisions are made, they are implemented promptly with the support of financial managers. Continuous monitoring ensures compliance with the policy and assesses the impacts of divestment decisions.
5. **Policy Review:** The Divestment Policy is reviewed annually to ensure alignment with evolving ethical standards and stakeholder expectations.

Through this policy, Trident College promotes responsible investing, aligning financial decisions with the institution's mission and values.
