SDG11: SUSTAINABLE CITIES & COMMUNITIES

11.4.4 Affordable housing for employees

Trident Academy of Technology (TAT) is committed to supporting its employees by providing affordable housing options. On-campus housing facilities are available at subsidized rates, offering staff convenience and proximity to their workplace, while fostering a sense of community. For those seeking off-campus accommodations, TAT partners with local housing providers to offer discounted rental options.

In addition to these housing options, TAT provides financial assistance through interest-free or low-interest loans to help employees afford rent or purchase homes. The academy also guides staff through government housing schemes aimed at reducing housing costs for educators and academic professionals.

TAT's commitment to sustainability extends to its housing solutions, incorporating eco-friendly designs and energy-efficient technologies in on-campus accommodations. These measures not only promote environmental consciousness but also help reduce utility expenses for residents.

For employees with families, TAT offers family-oriented housing options that provide ample space and essential amenities, ensuring a comfortable living experience.

By addressing the housing needs of its staff, TAT enhances employee well-being, improves work-life balance, and contributes to job satisfaction, making it an attractive and supportive workplace.
