SDG11: SUSTAINABLE CITIES & COMMUNITIES

11.4.7 Local authority collaboration regarding planning and development

To foster a unique vision for community growth and development, Trident Academy of Technology (TAT) collaborates closely with local authorities and industrial partners. By engaging with the Bhubaneswar Development Authority (BDA) and various industries, TAT aims to contribute to economic development while enhancing the quality of life for residents in the region.

TAT actively promotes awareness of the Sustainable Development Goals (SDGs) through a variety of platforms, including forums, public lectures, and community events. These initiatives not only educate the community about sustainable practices but also encourage active participation in local development efforts.

Furthermore, TAT conducts consulting projects and partners with industry leaders to promote sustainable building practices and technologies that align with community upliftment goals. These collaborations focus on innovative solutions that address local challenges while supporting economic growth and environmental sustainability.

By leveraging its academic expertise and fostering partnerships with key stakeholders, Trident Academy of Technology is committed to playing a pivotal role in shaping a sustainable future for the community, ultimately improving living standards and promoting responsible development.
